Springer International

Oecologia

Derived from *"Zeitschrift für Morphologie und Ökologie der Tiere", Oecologia* was founded in 1968, volumes (1968–1982), and edited by H. Remmert. As of volume 53 (1982) the journal has been edited by both H. Remmert and E.-D. Schulze. As of volume 81 (1989) the journal has been edited by J.R. Ehleringer, Salt Lake City; C.H. Peterson, Morehead City; H. Remmert, Marburg; E.-D. Schulze, Bayreuth. As of volume 83 (1990) the journal has been edited by J.R. Ehleringer, Salt Lake City; C.H. Peterson, Morehead City; M. Schaefer, Göttingen; E.-D. Schulze, Bayreuth.

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US $0.20 per page, or a minimum of US $1.00 if an article contains fewer than five pages. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0029-8549, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents

Agrell J → Sandell M
Alpert P → Friedman D
Azocar A → Squeo FA

Baker RL → Forbes MRL
Balda RP → Christensen KM
Ballaré CL, Scopel AL, Sánchez RA: On the opportunity cost of the photosynthate invested in stem elongation reactions mediated by phytochrome 561
Bauer H, Gallmetzer Ch, Sato T: Phenology and photosynthetic activity in sterile and fertile sporophytes of *Dryopteris filix-mas* (L.) Schott 159
Bergmans M, Dahms H-U, Schminke HK: An *r*-strategist in Antarctic pack ice 305
Berryman AA: Stabilization or regulation: what it all means! 140
Berven KA → Gamboa GJ
Björkman C, Larsson S, Gref R: Effects of nitrogen fertilization on pine needle chemistry and sawfly performance 202
Bloomer MS → Lindroth RL
Boer PJ den: Seeing the trees for the wood: random walks or bounded fluctuations of population size? 484
Bolger DT → Langen TA
Bradley MC, Perrin N, Calow P: Energy allocation in the cladoceran *Daphnia magna* Straus, under starvation and refeeding 414
Brawn JD: Environmental effects on variation and covariation in reproductive traits of Western Bluebirds 193
Brüning A: The effect of a single colony of the red wood ant, *Formica polyctena*, on the spider fauna (Araneae) of a beech forest floor 478
Burns CW → Butler MI
Butler MI, Burns CW: Prey selectivity of *Piona exigua*, a planktonic water mite 210

Calow P → Bradley MC
Carlsson BÅ → Karlsson PS
Case TJ → Langen TA
Christensen KM, Whitham TG, Balda RP: Discrimination among pinyon pine trees by Clark's Nutcrackers: effects of cone crop size and cone characters 402
Cipollini ML, Stiles EW: Costs of reproduction in *Nyssa sylvatica*: sexual dimorphism in reproductive frequency and nutrient flux 585
Collins SL, Klahr SC: Tree dispersion in oak-dominated forests along an environmental gradient 471
Courtney SP → Kibota TT
Culp JM, Glozier NE, Scrimgeour GJ: Reduction of predation risk under the cover of darkness: Avoidance responses of mayfly larvae to a benthic fish 163

Dahms H-U → Bergmans M
Damme JMM van → Ouborg NJ
Davis MA, Villinski J, McAndrew S, Scholtz H, Young E: Survivorship of penstemon grandiflorus in an oak woodland: combined effects of fire and pocket gophers 113
Demment MW → Loeb SC
Docherty M → Hunter MD
Donovan LA, Ehleringer JR: Ecophysiological differences among juvenile and reproductive plants of several woody species 594
Döring J → Schulz B
Drake BG → Ziska LH

Ebert D: The effect of size at birth, maturation threshold and genetic differences on the life-history of *Daphnia magna* 243
Ehleringer JR → Donovan LA
Ehrlén J → Eriksson O
Ellsworth DS → Reich PB
Erasmus T → Kerley GIH
Eriksson O, Ehrlén J: Phenological variation in fruit characteristics in vertebrate-dispersed plants 463
Erlinge S → Sandell M
Escarré J → Houssard C
Evans JP: The effect of resource integration on fitness related traits in a clonal dune perennial, *Hydrocotyle bonariensis* 268

Festa-Bianchet M → King WJ
Field CB → Fredeen AL
Fisher BL, Howe HF, Wright SJ: Survival and growth of *Virola surinamensis* yearlings: Water augmentation in gap and understory 292
Fishwild TG → Gamboa GJ
Forbes MRL, Baker RL: Condition and fecundity of the damselfly, *Enallagma ebrium* (Hagen): the importance of ectoparasites 335
Forrest GI → Watt AD
Fredeen AL, Griffin K, Field CB: Effects of light quantity and quality and soil nitrogen status on nitrate reductase activity in rainforest species of the genus *Piper* 441
Friedman D, Alpert P: Reciprocal transport between ramets increases growth of *Fragaria chiloensis* when light and nitrogen occur in separate patches but only if patches are rich 76

Gallmetzer Ch → Bauer H
Gamboa GJ, Berven KA, Schemidt RA, Fishwild TG, Jankens KM: Kin recognition by larval wood frogs (*Rana sylvatica*): effects of diet and prior exposure to conspecifics 319
Gibson CC, Watkinson AR: Host selectivity and the mediation of competition by the root hemiparasite *Rhinanthus minor* 81
Gliddon C → Turkington R
Glozier NE → Culp JM
Goldstein G → Squeo FA
Gottsberger G → Schulz B
Green WCH, Rothstein A: Trade-offs between growth and reproduction in female bison 521
Gref R → Björkman C
Griffin K → Fredeen AL

Hamilton RS → Turkington R
Harris FS, Martin CE: Plasticity in the degree of CAM-cycling and its relationship to drought stress in five species of *Talinum* (Portulacaceae) 575
Hatfield SE → King WJ
Hendrichs J, Katsoyannos BI, Papaj DR, Prokopy RJ: Sex differences in movement between natural feeding and mating sites and tradeoffs between food consumption, mating success and predator evasion in Mediterranean fruit flies (Diptera: Tephritidae) 223
Hero J-M → Magnusson WE
Hobson KA → Ramsay MA
Hogan KP → Ziska LH
Holopainen JK, Kainulainen E, Oksanen J, Wulff A, Kärenlampi L: Effect of exposure to fluoride, nitrogen compounds and SO_2 on the numbers of spruce shoot aphids on Norway spruce seedlings 51
Houssard C, Escarré J: The effects of seed weight on growth and competitive ability of *Rumex acetosella* from two successional old-fields 236
Howe HF → Fisher BL
Hunter MD, Watt AD, Docherty M: Outbreaks of the winter moth on Sitka Spruce in Scotland are not influenced by nutrient deficiencies of trees, the budburst, or pupal predation 62

Jackson DA, Somers KM: The spectre of 'spurious' correlations 147
Jankens KM → Gamboa GJ
Jennersten O, Kwak MM: Competition for bumblebee visitation between *Melampyrum pratense* and *Viscaria vulgaris* with healthy and *Ustilago*-infected flowers 88
Jennersten O → Kwak MM
Johnson K → Scriber JM
Johnson NC, Zak DR, Tilman D, Pfleger FL: Dynamics of vesicular-arbuscular mycorrhizae during old field succession 349
Jouventin P → Verheyden C

Kainulainen E → Holopainen JK
Kärenlampi L → Holopainen JK
Karlsson PS, Nordell KO, Carlsson BÅ, Svensson BM: The effect of soil nutrient status on prey utilization in four carnivorous plants 1
Katsoyannos BI → Hendrichs J
Kenney BC: Comments on 'Some misconceptions about the spurious correlation problem in the ecological literature' by YT Prairie and DF Bird 152
Kerley GIH, Erasmus T: What do mice select for in seeds? 261
Kibota TT, Courtney SP: Jack of one

trade, master of none: host choice by *Drosophila magnaquinaria* 251
King WJ, Festa-Bianchet M, Hatfield SE: Determinants of reproductive success in female Columbian ground squirrels 528
Klahr SC → Collins SL
Kroon H de, Kwant R: Density-dependent growth responses in two clonal herbs: regulation of shoot density 298
Kwak MM, Jennersten O: Bumblebee visitation and seedset in *Melampyrum pratense* and *Viscaria vulgaris*: heterospecific pollen and pollen limitation 99
Kwak MM → Jennersten O
Kwant R → Kroon H de
